PROFESSIONAL SUMMARY

- Strong proficiency in JavaScript for interactive, client-side functionality, and TypeScript for writing maintainable, type-safe code in Angular.
- Skilled in Django Rest Framework (DRF) for developing and integrating robust backend APIs.
- Solid knowledge of Core Python with practical experience in web application development.
- Experience with MySQL for data modeling and database management.
- Knowledgeable in Django Rest APIs for seamless backend integration with Angular.

EXPERIENCE:

FIRM/COMPANY NAME	LOCATION	ROLE	EXPERIENCE	TENURE
HOSTBOOKS LIMITED	GURGAON, HARYANA	FRONTEND DEVELOPER	2 Years +	March 2022 TO PRESENT

As a Frontend Developer at HostBooks, I have contributed to multiple high-impact projects, focusing on the development of data-driven applications and seamless integrations with third-party platforms. My responsibilities included designing and implementing user-friendly interfaces, managing backend API integrations, and developing custom tools to streamline data preparation and processing.

Key Responsibilities:
- Created a custom data preparation tool like Tableau Prep Builder, enabling users to efficiently clean and transform data for analysis.
- Developed frontend and backend components for plugin integrations with platforms such as Shopify, Hotellogix, and Canara Spring, ensuring accurate data synchronization and compliance.
- Designed and implemented JSON mapping and backend architecture, supporting automated data transfer and multi-entity data consolidation for advanced reporting.
- Utilized Django REST framework to develop scalable APIs, integrating HostBooks software with external systems for real-time data exchange.

Achievements:
- Successfully reduced data processing time by implementing efficient data preparation and transformation features.
- Enhanced user experience in the Dashboard module through intuitive charts and data visualization, receiving positive user feedback.
- Led the development of Consolidation XML and Consolidation XLSX plugins, facilitating consolidated data reporting across multiple entities.

Skills Developed:
- Advanced expertise in JavaScript (ES6+), TypeScript, and Angular for responsive, interactive frontend development.
- Backend development with Django REST Framework, with strong knowledge of Python, MySQL, and MongoDB.
- Proficiency in JSON mapping, data integration, and API architecture design for efficient data flow.

- Strong problem-solving skills and experience with version control systems (e.g., Git) for collaborative development.

FIRM/COMPANY NAME	LOCATION	ROLE	EXPERIENCE	TENURE
ASSCP BHEL	GURGAON, HARYANA	IT SPECIALIST	4 Years +	AUG 2017 TO DEC 2021

As an IT Specialist at ASSCP BHEL, I managed and maintained IT infrastructure, ensuring optimal uptime and reliability for enterprise systems. My role involved server administration, network configuration, and providing technical support for end-users across hardware, software, and connectivity issues.

Key Responsibilities:
- Managed IT infrastructure, including servers, networks, and hardware to ensure smooth operations.
- Provided end-user support, diagnosing and resolving hardware, software, and network issues.
- Installed, configured, and maintained hardware components such as servers, workstations, and peripherals.

Key Projects:
- Led ERP system implementation, coordinating infrastructure and hardware setup to support enterprise requirements.
- Implemented a network monitoring system to proactively identify hardware issues, boosting reliability.
- Conducted hardware audits to optimize resource allocation and reduce wastage.

Skills Developed:
- Expertise in IT infrastructure management, including hardware installation, server administration, and network configuration.
- Strong troubleshooting skills across hardware, software, and network environments.
- Familiarity with project management practices for effective IT project execution.

EDUCATION

University/Institution	Certificate/Degree	Year of Completion
MDU Rohtak	MCA (Regular)	2016
MDU Rohtak	BCA (Regular)	2013

TECHNICAL SKILLS

AREA	SKILLS
Programming Languages	Type Script, Java Script, Python, HTML, CSS.
Query Language	SQL
Technologies	Angular, React, Django Rest Framework,
Operating Systems	Windows, Linux & Ubuntu (OS)
Database	MySQL, Sqlite3, NoSQL
IDE's	VS Code, Sublime
